VISIT THE SURROUNDINGS

Ostellato is located within the PO DELTA PARK, one of the most important wetlands in Europe, the largest in Italy that receives elements of biodiversity that make it a paradise for naturalists, biologists, tourists and birdwatchers. It is possible to visit it with free excursions and guided tours. We invite you to discover this wonderful territory! Here are some suggestions:

- NATURAL RESERVE OF THE WOOD OF MESOLA - where it is possible to observe the last examples of the deer of the dunes, a native and protected species.
- COMACCHIO - ancient city is the most original and fascinating historical center in the Po Delta Park. It preserves intact the original appearance characterized by bridges and canals that cross the urban fabric.
- VALLI AND SALINA DI COMACCHIO - extraordinary naturalistic site of community interest and special protection area for the conservation of birds.
- ABBEY OF POMPOSA - Benedictine monastery of the VI-VII century. In the Basilica of Santa Maria one of the most precious fresco cycles in the whole province of Giotto-inspired and the beautiful mosaic floor with inlays of precious marbles.
- FERRARA - a splendid city of art to be enjoyed while strolling through its streets, discovering its character as a magnificent capital of the Renaissance in every corner and grasping the reasons for its present from this glorious past. The Estensis family governed it for three centuries and gave it the appearance it still preserves today: a unique urbanism that harmoniously fuses the Middle Ages and the Renaissance and makes it the first modern city in Europe. Because of this characteristic, it has been recognized by UNESCO as a "World Heritage Site".
- THE "SEVEN FERRARA'S BEACHES" - For those who love the sea, seven beach resorts, boast wide beaches and a wide choice of entertainment. The seven Lidi Ferraresi extend over 25 km of Ferrarese coast, the most beautiful of the Adriatic. The beaches have vast beaches and shallow waters where children can run and play in peace. The Lidi Ferrara's beaches has become a reference point for Italian seaside tourism, thanks to the beauty and tranquility of the places, ideal for families and stimulant for young people and sportsmen.
